DRILLMAX

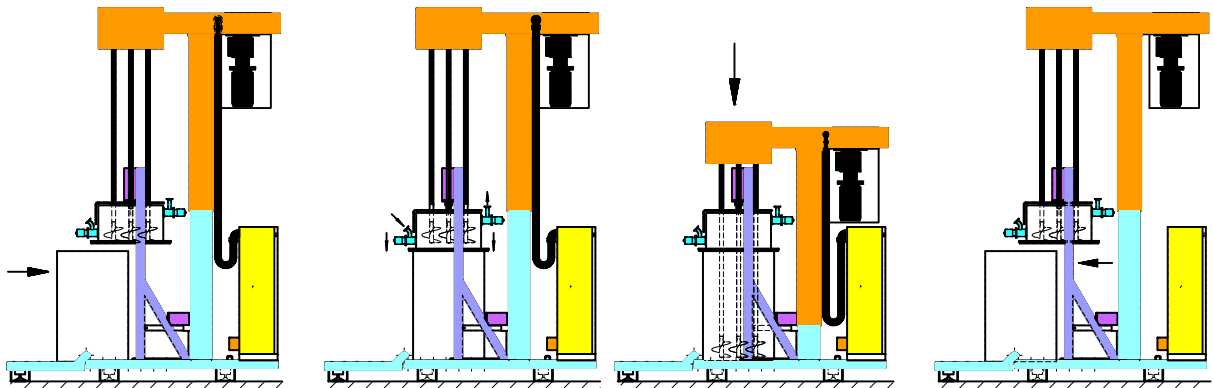

Solid delumping for the pharmaceutical / chemical industry

The **DRILLMAX** serves for the loosening of lumped powder products which are stored in barrels. It can be used for dry or for damp products as well.

The barrel is centered with the help of a block of the **DRILLMAX**. The spirals are moving in opposite directions and drilling into the product by lowering of the **DRILLMAX**'s upper part.

- ▶ GMP- conform
- ▶ Total enclosed and cooled drive with use in pure areas
- ▶ Use in  -area ATEX II 2G
